

BAXTER CREEK COMMUNITY AMENITY

Artist's conceptual rendering. Subject to change.

Baxter Creek has been designed to encompass the best parts of a Pacific West Coast lifestyle. It's where friends, families and neighbours will join all year round to create memories and experience everything Whistler has to offer. To enhance the features of Baxter Creek, the community will have its own private recreation and entertainment amenity to be shared and enjoyed by

all owners. Situated in a premier view location, the facility will include a large salt water pool, hot tub, firepit, changing rooms and plenty of outdoor seating. Imagine it now – apres with friends at the firepit after a spectacular day of spring skiing. A refreshing swim after hours of back country adventure. Lounging in the sun while the kids keep themselves entertained in the pool. Life just gets better and better.
